

Generative AI Outlook Report

Exploring the Intersection of Technology, Society, and Policy

2025

This document is a publication by the Joint Research Centre (JRC), the European Commission's science and knowledge service. It aims to provide evidence-based scientific support to the European policymaking process. The contents of this publication do not necessarily reflect the position or opinion of the European Commission. Neither the European Commission nor any person acting on behalf of the Commission is responsible for the use that might be made of this publication. For information on the methodology and quality underlying the data used in this publication for which the source is neither Eurostat nor other Commission services, users should contact the referenced source. The designations employed and the presentation of material on the maps do not imply the expression of any opinion whatsoever on the part of the European Union concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Layout: Carmen Capote de la Calle

The background is a complex, abstract line-art composition. It features several stylized human faces with various features like eyes, noses, and mouths represented by geometric shapes and patterns. Interspersed among these faces are elements of binary code (0s and 1s), a faint world map, and various symbols like stars, crosses, and geometric patterns. The overall style is reminiscent of mid-century modern graphic design.
