👤 PROFILE

Experienced and professional Senior Project Manager with ten years of valuable experience in monitoring project performance to ensure company success. Familiar and adept in working with software engineering, industrial engineering, change management, and business transformation systems. Reputation for continually achieving on time and under-budget performance goals. Accustomed to handling IT support, managing IT projects, and supporting various technical and business departments with IT tools and applications. Strong communication skills, stakeholder management and third party vendor management skills. Highly motivated and driven individual. Bringing forth a motivated attitude and the ability to establish strong and productive relationships with other company members.

📁 EMPLOYMENT HISTORY

Senior Project Manager - Professional Services at Fidelity National Information Services, Inc., Milan, Italy

October 2022

Manages a high volume of projects of medium to high risk and complexity with project duration of three to twelve months for seven of the Top FIS Global clients and multiple other smaller to medium sized clients. Plans and coordinates all aspects of technical projects from initiation through closure for team members, other internal departments, the clients, and third party vendors. Communicates deliverables and milestones to all stakeholders during the project life cycle via weekly status calls and work in progress tracker reports.

Able to find efficiencies, implement process improvements, recognize and manage project risks, develop workarounds, prioritize, maintain scope creep, and have a sense of urgency to meet client critical deadlines.

Develops, defines, and executes project plans, scopes of work, budgets and deliverables, and ensures project completion under strict service level agreements while anticipating future client needs.
