

AI Act Governance: Best Practices for Implementing the EU AI Act

Image created by Adobe Firefly with the prompt
"A pointy 3d prism that is about to open up with
glowing neon data streams coming from inside.
Add some AI related abstract background"

Contents

Introduction	4
Section 1: A Quick Introduction to the EU AI Act	7
What is the AI Act?	8
How to Identify Obligations	8
Technical Obligations Per Risk Class and Role	10
Section 2: Challenges to Operationalize the EU AI Act in the Enterprise	11
Challenges to Operationalize the EU AI Act	12
Responding to These Challenges: The appliedAI Working Groups	13
Working Group Outcomes	13
Section 3: The AI Act Governance Pyramid	15
What is the AI Act Governance Pyramid?	16
The AI Act Governance Pyramid Benefits and Limitations	17
Layer 1: Orchestration Layer	18
Layer 2: Integration Layer	20
Layer 3: Execution Layer	21
Interactions between Layers	23
Putting it All Together	24

Section 4: Operationalizing Requirements for Providers of High-Risk AI Systems	27
Methodology: An Iterative Approach	28
Overview of Identified ISO/IEC Standards	29
Best Practices for Implementing Requirements of High-Risk AI Systems under the AI Act	31
A Brief Overview on Transparency Obligations and Low Risk AI Systems	47
Section 5: ML Skills Profiles under the AI Act and Getting Started Today	49
ML Skill Profiles under the AI Act	50
Getting Started Today: Bridging the Gap	52
Outlook	53
